The water usage for the purpose of calculating the volume charge under Section 4c-Monthly Rates shall be the average metered water consumption for the two preceding winter months of January and February. This average consumption shall be used for billing purposes for the twelve-month period beginning with the first cycle for wastewater service billed in April.

If the customer does not receive water service from the City of Brenham, then a monthly estimate of water usage shall be made based upon verifiable data provided by the customer or, if verifiable data is not provided by the customer, an estimate of water usage shall be prepared by the City Manager, or a duly authorized representative.
