WORK SESSION

6. Discussion and Presentation by the Brenham Animal Shelter Task Force About Future Animal Shelter Needs, Projected Cost of Constructing a New Facility, and Fundraising Efforts to Help Fund a New Facility

Police Chief Rex Phelps presented this item. Phelps introduced the members of the Brenham Animal Shelter Task Force: Todd Jacobs, Amanda Carker, Janet Crane, John and Tay Knapp, Sally Blackie-Sengel, Calvin Kossie, Lete Phillips, Dorothy Antkowiak, Kathy Parker, Wesley Brinkmeyer, and Steve James. Phelps stated the Brenham Animal Shelter Task Force is anticipating the new shelter to be approximately 9,900 square feet and cost roughly \$2 Million dollars. Phelps explained that an anonymous private donor has offered to give \$500,000.00 if the City and County will match the donor's donation. The anonymous donor has also pledged to help fundraise the remaining \$500,000.00. Phelps introduced Richard Edwards with Edwards and Associates, an architectural firm that has a lot of experience in the construction of animal shelters, to explain the logistics and pricing of the project.

Edwards stated his company primarily deals with Commercial and Municipal projects in Texas. Currently, they have constructed six (6) animal shelters. Edwards discussed goals, programming, key requirements, spaces to consider, positive impacts of a good shelter, review of process, budget, and projected cost of the total project. Edwards showed examples of other animal shelters his company had built including: Conroe, Friendswood, and Montgomery County Animal Shelters.

Councilmember Barnes-Tilley stated that she was glad to hear that at least half of the costs were going to be covered. Barnes-Tilley asked if the cost increase of the new building would not be as significant as they anticipate when you take into consideration the amount of money being spent on repairs to the current facility.

Assistant City Manager Kyle Dannhaus stated that heating and air is the biggest cost and it is hard to determine, at this point, the cost increase.

Chief Phelps stated the next Brenham Animal Shelter Task Force meeting will be held Monday, April 22, 2013 at 9:00 a.m.

7. Discuss and Review the FY2012-13 First Quarter Financial Report

Chief Financial Officer Carolyn Miller presented this item. Miller reported that although the first quarter was challenging, the overall results were positive. Miller advised the status of the General Fund and the five major utility funds in the report. Miller stated the sales tax was projected to increase by 10%, but was running 3% behind in the first quarter.

Miller explained that for the first quarter, the City experienced favorable performance in the General Fund and all utility funds posted positive net revenues over expenditures, with the

exception of the Gas Fund which posted a net loss for the quarter due to the timing of the “true-up” for gas purchased costs.

FINANCIAL PERFORMANCE SUMMARY

Fund	1st QTR Actual Performance		
	Revenues	Expenditures	Net Revenues (Expenditures)
General Fund	\$ 3,496,788	\$ 3,426,758	\$ 70,030
Electric Fund	5,242,444	4,984,903	257,541
Gas Fund	642,156	714,739	(72,583)
Water Fund	1,121,879	1,087,662	34,217
Wastewater Fund	913,379	826,166	87,213
Sanitation Fund	785,394	635,145	150,249

Miller advised that, for the first quarter, even though revenues were down, the departments held the line on spending and conserved funds. Miller stated that the City would be looking at revenues in the coming months to make sure the City will not be negatively affected.

8. Discussion and Presentation on a Proposed Interagency Cooperation Contract Between the City of Brenham and Region 6 Educational Service Center (ESC6) for the Use of Fiber and Installation of Wireless Equipment on a City of Brenham Radio Transmission Tower

I.T. Director Gary Jeter presented this item. Jeter explained the proposed Interagency Cooperation Contract between the City of Brenham and Region 6 Educational Service Center (ESC6) for the use of fiber and installation of wireless equipment on a City of Brenham Radio Transmission Tower. Jeter stated ESC6 has requested cooperation through an Interlocal Agreement with the City of Brenham on a project that will bring broadband internet to rural school districts. Jeter explained that costs to the City would be minimal and the City would benefit from a stronger wireless signal to Lake Somerville.

Councilmember Goss asked about the charge for usage fee. Jeter stated that the City will not be charging ESC6 because the fiber being used was purchased by Brenham Independent School District, Blinn College and the City and it already exists. Jeter explained that the City has space on the tower; therefore, this agreement will benefit the City.

Councilmember Goss inquired about liability issues. City Attorney Cary Bovey stated that there can be language placed in the agreement to remove any liability from the City.

Councilmember Herring stated that he would like to have something in writing from Central Washington County Water Supply stating they are okay with this agreement.

9. Discussion and Presentation on Amendments to the Thoroughfare Plan Map Within the City of Brenham's Envision 2020 Comprehensive Plan

Development Services Director Julie Fulgham presented this item. Fulgham stated that the Thoroughfare Plan is comprised of two elements: (1.) a map showing existing and planned roads by functional classification and right-of-way width; and (2.) an associated report on roadway and transpiration corridor plans within a community. Fulgham explained a thoroughfare plan map is an integral part of a City's development regulations. Fulgham stated that Staff and the Planning and Zoning Commission have been working on amendments to the City of Brenham's existing thoroughfare plan map to ensure the City has adequately planned for transportation corridors.

Councilmember Goss questioned the flexibility of the Thoroughfare Plan. Fulgham explained that there is flexibility to an extent for the best of the City's need. Councilmember Goss stated that he doesn't want to see a developer leave the table due to restrictions. Assistant City Manager Kyle Dannhaus stated that Staff will work with developers, but they will not stop development.

PUBLIC HEARING

10. Public Hearing Regarding a Request for Specific Use Permit at 704 Durden Street (Legal Description Being Block 8, Lot 3 of the Durden Courts Addition in the City of Brenham, Washington County, Texas), to Allow an Auxiliary Church Use on the Property

Development Services Director Julie Fulgham presented this item. Fulgham stated the Planning and Zoning Committee has recommended approval of the Specific Use Permit with restrictions to protect the residential neighborhood and its preservation. Fulgham explained the house will have to be maintained as a residential building even though the church plans to use it for a church office and for church purposes.

Councilmember Goss questioned if the property will be used for parking. Fulgham stated the church has a large amount of parking already and restrictions have been placed on the parking situation for this habitation.

A concerned citizen stated that she was upset when she saw this in the paper, but since there will be restrictions on this permit then she is okay with this taking place in her neighborhood. She did not want this permit to be allowed and the integrity of her neighborhood to be changed with a business coming into her residential neighborhood. She stated that she is more comfortable with the conditions to keep the habitation a residential structure.

Councilmember Goss questioned if one house has already been removed from the property, how the City could be sure that the church will not do the same with this property. The concerned citizen stated that the demolition of the previous house was an improvement to the neighborhood due to the poor quality of the house.

Councilmember Barnes-Tilley asked if the church could rightfully purchase the house and tear it down. Fulgham explained that they could, but there would be nothing the City could do about this. Councilmember Barnes-Tilley asked if the church were to demolish the house and reconstruct a building would it have to be a single family residential structure. Fulgham confirmed that it would. Assistant City Manager Kyle Dannhaus stated that if the church demolishes the current house, the Specific Use Permit would be null and void.
