**DETERMINATION OF WATER USAGE**

The water usage for the purpose of calculating the volume charge under Monthly Rates shall be the average metered water consumption based on bill cycle shown below:

Bill Cycle	Period
1	January 1 – March 7
2	January 8 – March 14
3	January 15 – March 21
4	December 22 – February 28

This average consumption shall be used for billing purposes for the twelve-month period beginning with the first cycle for wastewater service billed in April.

Where no preceding winter average is available from the City's records the City Manager, or a duly authorized representative, shall develop an estimate of winter water usage. This estimate shall be based on upon water consumption at the same location experienced during prior years, actual water consumption at similar locations, or other methods of reasonably estimating water consumption.

If the customer does not receive water service from the City of Brenham, then a monthly estimate of water usage shall be made based upon verifiable data provided by the customer or, if verifiable data is not provided by the customer, an estimate of water usage shall be prepared by the City Manager, or a duly authorized representative. The estimate shall be based upon actual water consumption at similar locations, or other methods of reasonably estimating water consumption. At the City's discretion, any customer not receiving water service from the City may be required to install, at no cost to the City, a meter on their water supply or service in order to determine water usage.

If a customer can provide verifiable data, acceptable to the City, that a significant portion of the metered water usage does not enter the City's Wastewater System, then the City Manager, or a duly authorized representative, may adjust the metered water usage for determining the volume charge.

**TERMS OF PAYMENT**

All rates specified herein are net, and the gross rates for delinquent payments are ten percent (10%) higher. If full payment is not received at the City's offices or other approved payment location on or before the due date, all of the customer's utility services will be considered delinquent and subject to disconnection.
